Who We Are

SafeQual AB is an awarding body registered in England and Wales, with its office in London. We develop, award and quality assure vocational and professional qualifications that build real competence in the workplace and support lifelong learning around the world.

We work through a network of approved centres. Training providers, employers and colleges deliver our qualifications to learners, and SafeQual AB sets the standards, quality assures assessment and awards certificates that employers can verify online.

Our purpose	Our values
To raise standards of safety, health and professional competence through qualifications that are relevant, rigorous and recognised by employers.	Integrity: fair, valid and reliable assessment. Quality: consistent standards across every centre. Accessibility: qualifications open to all who can benefit. Relevance: content built with industry practitioners.

What We Do

Service	What it means for you
Qualification development	Qualifications designed with sector experts, mapped to job roles and set at clear levels from Entry to Level 7.
Centre approval	A clear route for training providers to become SafeQual AB approved centres, with support from application to first certification.
Quality assurance	Internal and external quality assurance so that every certificate represents the same standard, wherever it is earned.
Certification and verification	Secure certificates with unique numbers that employers can verify online at any time.
Professional membership	Associate, Professional and Fellow grades that recognise competence and commitment to CPD.

Our Sectors

Sector	Focus
Health & Safety	Workplace safety, risk assessment, safety management, fire safety and electrical safety.
Occupational Health	Hazardous substances, gas detection, health surveillance and wellbeing.
Environmental	Environmental management, waste and sustainability.
Management	HSE management, leadership, supervision and auditing.
Construction	Lifting operations and rigging, plant safety, tunnelling and site supervision.
All Sectors	Cross-sector skills such as training and assessment.

Full details of each qualification, including size (GLH and TQT), units and assessment, are given in its qualification specification on www.safequalab.org.

Become an Approved Centre

- **Enquire:** tell us which qualifications you want to offer.
- **Apply:** submit the Centre Approval Application with your staff, policy and resource details.
- **Approval visit:** a virtual or on-site review of your systems, premises and team.
- **Deliver:** register learners, assess, quality assure and claim certificates, with ongoing EQA support.

Professional Membership

Grade	Who it is for
Associate Member	People starting out in health, safety or a related field, or holding a SafeQual AB qualification at Level 2 or 3.
Professional Member	Practitioners with relevant qualifications and experience who take responsibility for safety outcomes.
Fellow Member	Senior professionals who have made a significant contribution to their field.

For Employers

- Build and evidence the competence of your workforce.
- Verify any SafeQual AB certificate online in seconds.
- Become an approved centre and deliver qualifications in-house.
